CHATTANOOGA WHISKEY®

THE ONLY TENNESSEE HIGH MALT WHISKEY

INTRODUCING OUR STRAIGHT RYE MALT WHISKEY

Tennessee Rye Malt is the newest addition to the Tennessee High Malt family of bourbons and whiskeys. Just like Chattanooga Whiskey 91 & 111, Tennessee Rye Malt traces its roots to our Experimental Distillery, and one of the first Experimental batches released there: Batch 007 (released in May 2018).

Crafted as our malt-forward approach to rye, our mash bill contains greater than 60% malted rye – which classifies it as a straight rye malt whiskey. Our version of this rare and flavorful style utilizes a combination of slow toasted & drum roasted rye malts, which results in a richer, spicier and more complex profile. The result is a bold reinvention of rye, brimming with sweet & savory notes of candied fruit, herbs and spice.

99 RYE – 99 PROOF

Color: Deep Amber

Tasting Notes: Fruit cake, cola spice, sage and toasted rye. Full bodied with a malty sweet & spicy finish.

4-Grain, 3-Malt Signature Recipe
Uses Slow Toasted Rye Malt
and Drum Roasted Rye Malt
Bottled in Small Batches

MASH BILL	MALTED RYE, YELLOW CORN, CARAMEL MALTED RYE & CARAMEL MALTED BARLEY
FERMENTATION	ATTEMPERATED, 7 DAYS
COOPERAGE	53 GALLON, CHARRED OAK BARRELS
FILTRATION	NONE - BOTTLE OCCASIONALLY CAPTURES BARREL SEDIMENT
AGE	GREATER THAN 3 YEARS
BATCH SIZE	6-10 BARRELS

Hand crafted in small batches, our Tennessee Rye Malt is made from four grains, including three select specialty malts, for a distinctly rich & complex character.

THE HOMES OF CHATTANOOGA WHISKEY

Chattanooga Whiskey is proud to craft whiskey in Chattanooga at two locations. Our Experimental Distillery, open to the public for tours and tastings, pushes the boundaries of whiskey-making, crafting one-of-a-kind whiskeys that can't be found anywhere else. Our Riverfront Distillery serves as the production home of our signature Tennessee High Malt Whiskey.
